

IEC System for Certification to Standards Relating to Equipment for Use in Renewable Energy Applications (IECRE System)

SUBJECT:

Result of voting received on WE-OMC/316/DV (To approve the proposed transition plan to ease the conversion of existing IEC61400-22 certificates into IECRE certificates)

BACKGROUND:

As per WE-OMC/316/DV sent out on 2018-07-20, WE-OMC Member Bodies were requested to vote and provide their comments on the “approval of the proposed transition plan to ease the conversion of existing IEC61400-22 certificates into IECRE certificates” by 2018-09-03.

Out of 12 Member Bodies, all replied positively, one Member Body provided comments. Based on the replies received, the proposed transition plan to ease the conversion of existing IEC61400-22 certificates into IECRE certificates is approved.

Country	Yes	Abstention	Comments	No

USA	1			
Total	12	0		0

Comments received have been forwarded to the SGs & the WE-OMC Vice-Chair for their future consideration.

ACTION:

WE-OMC to note the results of the Ballot by the WE-OMC Member Bodies.

Comments from Spanish Member Body:

We propose the following:

- Extension of the issuing date for IEC TCs that can benefit from the conversion (replace 1st April 2018 by 31st December 2018)
- For the converted IECRE certificates, the “gap analysis” should not be mandatory.
